Maame carrier 1:1 plate template. Board outline is a 95 x 95 mm placeholder.

Lay on the top plate, nose arrow to the front; poke through the holes you want; read positions off the grid (mm from top–left).
Kakute M3 holes, ESC slot and Pi outline are drawn where they sit now.

50 mm: measure this bar. If it is not exactly 50 mm, reprint at 100% / Actual size
